PATIENT DISCLOSURE

I understand that the Report generated from my images is intended for use by trained health care providers to assist in evaluation, diagnosis and treatment. I further understand that the Report is not intended to be used by individuals for self-evaluation or self-diagnosis. I understand that the Report will not tell me whether I have any illness, disease, or other condition but will be an analysis of the Images with respect only to the thermographic findings discussed in the Report.

By signing below, I certify that I have read and understand the statements above and consent to the examination.

Understanding of Services Provided
By DITI Imaging

I _____ fully understand the following:
(Please Print Your Name)

- DITI Imaging does **NOT** diagnose or treat any disease or health condition. If I have any disease or abnormal health condition, I must seek qualified medical advice from a licensed physician.
- DITI Imaging is dedicated to help their clients find a path to better health with an emphasis on education and self-care. My interest is to educate myself in achieving the best health possible.
- Digital Infrared Thermal Imaging (DITI) is an **adjunctive screening** and is not designed to replace current screening methods.
- Digital Infrared Thermal Imaging, like a mammogram or sonogram, is not 100% effective. A suspicious mass may warrant a biopsy.
- I have chosen to have this type of screening procedure for one or more of the following reasons:
  (initial those that apply)

  _____ I wish to minimize my exposure to radiation.
  _____ I am looking for methods of possible earlier detection of any abnormalities.
  _____ I do not desire to have a mammogram.
  _____ I have had a mammogram before and chose not to have another.
  _____ I have had a mammogram and desire to use this procedure in between checkups.
  _____ _____

- DITI is appropriate for **ALL** women, but especially for younger women between 25 and 50 whose denser breast tissue makes it more difficult for a mammogram to pick up suspicious lesions. This can provide a "clinical marker" to the doctor or mammographer that a specific area of the breast needs particularly close examination.
- What I learn from DITI Imaging and this procedure may not be universally accepted. Certain agencies and other health authorities may not agree with an approach where the client must be responsible for developing and maintaining their own health.
- The reports/images provided are **NOT** designed for self-diagnosis and should be reviewed with a Health Care professional.

I have read and understand what is printed above.

Cancellation and Reschedule Policy

- We understand that life happens and sometimes you are unable to keep your scheduled appointment. In these instances, we would greatly appreciate your courtesy call at least 24 hours in advance of your appointment time, so that we can plan accordingly. This consideration allows other patients an opportunity to reserve an appointment during that time. Because of the distance that we often travel to provide service to our remote clinics, your advance notice also assures that we plan our staffing and materials requirements properly.

- If you do not appear for your scheduled appointment and you have not contacted us via phone (as we do not accept cancellations by email), we reserve the right to charge a $50 cancellation fee.

- If you are running late for your appointment, please call us. We will do our best to accommodate you or reschedule your appointment.

We are dedicated to making your screening appointments as easy and convenient as possible. We thank you for your understanding of this important issue.
